

POLICY No. 6-15

CURTAILMENT OF ELECTRIC SERVICE

PURPOSE OF POLICY:

To provide a policy for curtailment of electric service when power supplies are insufficient.

POLICY CONTENT:

Inland Power will comply with regional and state plans for developing curtailment procedures. These plans involve both voluntary and mandatory measures to reduce power consumption during times of low or insufficient power availability.

The CEO is authorized to take any necessary curtailment measures where no guidance is provided in the regional or state plans.

RESPONSIBILITY FOR IMPLEMENTATION:

The CEO is responsible for developing the necessary procedures for implementing this policy.
