

Start your path to

Building Energy Savings **TODAY!**

**Low Interest Financing of
Energy Savings Project at 5%.**

**Opportunity to lock in
energy savings in your home.**

*The **BEST** low interest financing program (5%) is a great opportunity to get energy saving projects completed in your home! This tariff program is offered to members for specific energy savings projects that are allowed under the Rural Energy Savings Program (RESP). The RESP is overseen by the United States Government acting through the Rural Utilities Service (RUS) office.*

**See the following requirements and specifications
to get the process started TODAY!**

How it works

THE BEST PROGRAM

Before getting started, please note the following restrictions regarding the BEST program.

- ➔ Member can only have one tariff project financed at a given time.
- ➔ Minimum project amount is \$1,000.
- ➔ Multifamily housing not eligible.
- ➔ Project amount up to \$50,000.
- ➔ Income verification required for any project over \$15,000 - 12 months.
- ➔ On-time payment history - 12 months.

BEST Checklist

Prior to submitting your BEST application, members should have the following items prepared.

Identify the type of energy savings project you intend to complete.

- Hybrid Electric Water Heater
- Heat Pump
- Washer and Dryer
- Residential EV Charging Station
- Insulation
- Windows
- Solar

Complete application and submit.

Request a bid from a contractor (HVAC contractors must be on Inland's approved contractor list).

- Determine how much you will need to finance to complete your project.
- Sign the received bid and include with the project application.

Income verification.

Required for projects \$15,000 or more.

Review and sign the BEST Agreement.

Include agreement with application package.

Requirements for the best program:

- Must be an Inland Power member with an active account
- Must own the property in which the energy savings will be installed
- Energy savings must meet current building code
- An Inland Power approved contractor must be used for HVAC projects.

The selection, purchase and installation of the energy efficiency measures (EEM) shall be the sole responsibility of the Owner(s). The Owner(s) must rely upon the approved installer selected by the Owner(s) regarding any representation or promise about the materials or labor required for installation of the EEM, the cost of such EEM including materials and labor, and any energy savings that may accrue from the installation of the EEM. Inland Power's evaluation of the EEM is for the sole purpose of determining the Owner's eligibility for Inland Power's rebate program. Any required maintenance, repair, or replacement of the EEM shall be the sole responsibility of, and at the expense of the Owner(s). The Owner(s) understands Inland Power hereby disclaims any and all implied or express warranties (including but not limited to implied warranties of merchantability or fitness for a particular purpose) for the EEM. I authorize an Inland Power representative to inquire into my credit history.

*Rebate and repayment programs subject to change at Inland Power's discretion.

MEMBER SIGNATURE RELEASE

By signing below, the member certifies that the invoice attached is the final invoice for the energy efficiency project and that all accompanying records are complete and accurate. Member further warrants that the project was completed to their satisfaction and to their knowledge that the contractor was licensed and bonded and employed qualified employees.

Member agrees that all work on or at the Property for the Project was performed by the aforementioned contractor and that IPL has not performed any of the work on or at the Property associated with the Project. IPL does not warrant or guarantee the workmanship of the contractor, the functionality of any of the equipment used on the Project, or the energy efficiency measure. Member agrees that IPL is solely assisting Member with financing the purchase and installation of certain energy savings improvements on the Project. Member waives all rights to sue or demand compensation from IPL for any claims, damages, injuries, losses, or liabilities arising directly or indirectly from the work performed by the contractor on the Project and/or arising directly or indirectly from any equipment used on the Project. Member agrees that any and all issues or claims regarding contractor's work on the Project, any equipment used on the project, and/or the energy efficiency measure must be resolved between Member and the contractor and/or the manufacturer of any equipment used on the Project.
