

Start your path to

Building Energy Savings **TODAY** for Commercial Members

**Low Interest Financing of
Energy Savings Project at 5%.**

**Opportunity to lock in
energy savings in your home.**

*The **BEST** low interest financing program (5%) is a great opportunity to get energy saving projects completed in your home! This tariff program is offered to members for specific energy savings projects that are allowed under the Rural Energy Savings Program (RESP). The RESP is overseen by the United States Government acting through the Rural Utilities Service (RUS) office.*

**See the following requirements and specifications
to get the process started TODAY!**

How it works

THE BEST PROGRAM for Commercial Members

Before getting started, please note the following restrictions regarding the BEST program.

- Member can only have one tariff project financed at a given time.
- Multifamily properties not eligible.
- Project pre-approval required.
- On-time payment history - 12 months.

BEST Checklist

Prior to submitting your BEST application, members should have the following items prepared.

Identify the type of energy savings project you intend to complete.

- Lighting
- HVAC
- Motor Systems
- Water Heaters
- Building Envelope Improvements
- Solar and/or Battery Storage
- Other

Complete application and submit.

Request a bid from a contractor.

- Determine how much you will need to finance to complete your project.
- Sign the received bid and include with the project application.

Income verification.

Miscellaneous business statements.

Review and sign the BEST Agreement.

Include agreement with application package.

Requirements for the best program:

- Must be an Inland Power member with an active account.
- Must own the property in which the energy savings will be installed.
- Energy savings must meet current building code.

The selection, purchase and installation of the energy efficiency measures (EEM) shall be the sole responsibility of the Owner(s). The Owner(s) must rely upon the approved installer selected by the Owner(s) regarding any representation or promise about the materials or labor required for installation of the EEM, the cost of such EEM including materials and labor, and any energy savings that may accrue from the installation of the EEM. Inland Power's evaluation of the EEM is for the sole purpose of determining the Owner's eligibility for Inland Power's rebate program. Any required maintenance, repair, or replacement of the EEM shall be the sole responsibility of, and at the expense of the Owner(s). The Owner(s) understands Inland Power hereby disclaims any and all implied or express warranties (including but not limited to implied warranties of merchantability or fitness for a particular purpose) for the EEM. I authorize an Inland Power representative to inquire into my credit history.

*Rebate and repayment programs subject to change at Inland Power's discretion.
