INLAND POWER NAMES NEW VP OF OPERATIONS

Spokane, WA – Dec. 12, 2024: Inland Power & Light is pleased to announce the promotion of Dallas Childers to Vice President of Operations. Dallas assumes the role effectively immediately.

“I am thrilled for the opportunity to lead our entire Operations team as we continue to make improvements to infrastructure, safety protocol, and overall service to our members,” Childers said. “We have assembled an outstanding group of individuals – from line crews to dispatch, warehouse to substation and metering, vegetation management to fleet, our Operations team is exceptional.”

“Dallas has been instrumental in managing our Four Lakes crew and contractors, has led the Operations team through several fire events, helped to develop and lead our Joint Apprentice Training Committee program and made a significant impact to Inland Power’s safety program,” said Jennifer Lutz, President and COO.

Dallas began his career at Inland Power & Light in 2018 as a lineman and was promoted to General Foreman in 2022.

ABOUT INLAND POWER & LIGHT

Inland Power & Light is a nonprofit electric cooperative providing affordable, safe and reliable electricity to over 46,000 member-owners in thirteen counties throughout eastern Washington and northern Idaho. Founded in 1937, Inland Power is the largest electric cooperative in Washington.
