

POLICY No. 6-4**RESIDENTIAL SERVICE RATE: SCHEDULE A****PURPOSE OF POLICY:**

To define residential service rate class and establish electric rates for that class.

POLICY CONTENT:Applicability of Residential Service Rate Schedule

The residential service rate applies to the following types of services:

1. Single-family residences.
2. Multi-family residences where each unit is separately metered.
3. Any single meter in farming operations which includes a residence, except for separately metered irrigation loads.
4. Other services not meeting the above criteria should be served under Schedule B or other appropriate rate schedule.

Net Residential Service Monthly Rates--After Application of Five Percent Prompt Payment Discount:

Service Availability Charge – Single Phase:	\$24.55 per month
Service Availability Charge – Three Phase:	\$34.40 per month
kWh Charge:	\$0.0680 per kWh

RESPONSIBILITY FOR IMPLEMENTATION:

The CEO is responsible for developing procedures to bill qualifying customers under this rate schedule.
